¶ The prdnosticacis of maister Jaspar late of borchloon/ doctour in astrologie of the pere. M.CCCCCC.xvi. translated in to pnglissh to the honorre of te mooste noble & victorious kynge Henry the. viij. by pour mooste hūble subiect Nicholas longwater goeuerner of our lady cōception in ỹ r enowmed towne of Andwarp in sinte Jorge perps

¶ Prinsipalp takyng for my fundament after folowyng ptolomeū in his fourt boke in the. ij. parte eclips of ỹ mone ỹ this pere thei shall gheue ther effect & also the eclips of the sonne of. iij. puncties wiche shalnat gheue his effect but abowte the. ix. pere after the eclips or ỹ ware withyn the thyme that any cōstallacyon ram that were leke the eclips and that distrahed his effect. Itē for the cōiunction of saturnus and marse the. vij. day of ianuere in the. xv graet of sagittarius and oppositcion of iubiter and marse the. xi. day of feuerpere bothe been in ther exaltacyō and that. iiij. aspect betwyn saturnus and mars and reuolucion of the grete world and the goyng yn of the sonne in the fourt quarteer of this pere and all the cōiunctiō of the oppocision of the sonne and the mone that shalbe this pere so wil y goe forthe in these practike prynsyppall goyng for the remenber the eclips of the mone.

¶ Of the lord of this pere. That wil right merke the sayd cōstellacyon & prinsipall the eclips of the mone ther shall pe fynd that saturn? prinsipall lord of this pere shal be with iubiter and marcurius for thei haue the mooste myght in the forsayd cōstellacyon/ and after the mydel of the pere shal saturnus & mars haue the mooste myght

¶ Of the uniuersall chaynge of the yeper The begynnyng of this pere shalbe cold weet with mystes and derkenes of the aper often chaynge of son derkenes in a other thei after sette what dryues with smale rennes &
